

Turtle Feeding Schedule & Automatic Feeder Setup Guide

This guide helps you properly feed your turtle using automatic feeders. It includes feeding schedules, setup steps, and expert recommendations.

Why Use an Automatic Turtle Feeder?

- Ensures consistent feeding
- Prevents overfeeding
- Ideal for busy pet owners

Turtle Age	Frequency	Portion
Baby	2 times/day	Small portions
Juvenile	1–2 times/day	Medium
Adult	Every 1–2 days	Controlled

How to Set Up an Automatic Feeder

1. Install feeder on tank
2. Add dry turtle pellets
3. Set timer
4. Test feeding cycle

Pro Tips

- Use only dry food
- Clean feeder weekly
- Test before leaving home

Common Mistakes

- Overfilling feeder
- Using wet food
- Incorrect timer settings

Vet Recommendations

Veterinarians recommend portion control and balanced diet including pellets, vegetables, and protein sources.

Checklist

- Feeder installed
- Timer set
- Food loaded
- Backup plan ready
