

Complete Cat Pregnancy Care Guide

This printable guide helps you understand early symptoms, pregnancy stages, care tips, and what to expect during your cat's pregnancy.

Week	Stage	Key Signs
Week 1	Fertilization	No visible changes
Week 2	Implantation	Hormonal changes begin
Week 3	Early Signs	Pink nipples, slight appetite change
Week 4-5	Growth	Belly grows, weight gain
Week 6	Movement	Kittens begin moving
Week 7-8	Preparation	Nesting behavior
Week 9	Birth	Labor begins

Care Tips for Pregnant Cats:

- Provide high-protein food
- Ensure fresh water at all times
- Create a quiet nesting space
- Schedule vet checkups
- Monitor behavior and appetite
